23. "Free" filter not working properly.....	18
24. Filter should not be case-sensitive.....	18

A) HOME PAGE

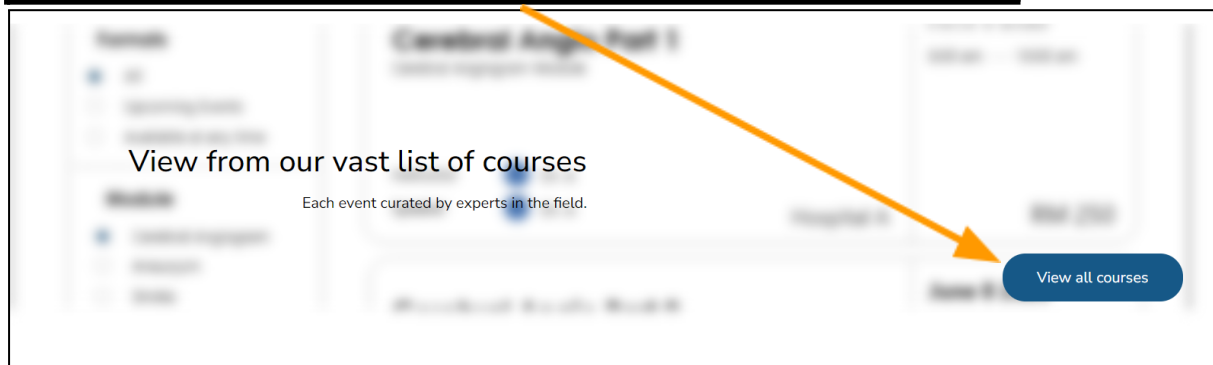

1. Search bar functioning like a button

1. Search bar - The icon when pressed, should lead to the thing the users are searching for. In the “What are you interested in” space, users should be able to type.

2. Rename “View all courses” button

2. This button should be renamed to View all Modules”

B) USER DASHBOARD PAGE

3. Speciality bug

3. Weird behaviour whereby when selecting a Speciality, it shows all 4, but after picking one, it only shows 3.

(It should show ALL of the options at all times)

Before	After
<div>Speciality</div> <div>Radiology</div> <div>Radiology</div> <div>Neurology</div> <div>Pathology</div> <div>Others</div> <div>4</div>	<div>Speciality</div> <div>Others</div> <div>Radiology</div> <div>Neurology</div> <div>Pathology</div> <div>3?</div>

4. Speciality field should be able to type

4. "Others" should allow users to type in their own Speciality

Speciality

Others

C) CREATE EVENT PAGE

5. Registration No. typo

④ Instructor / Speakers

* Instructor(s) * Speaker(s)

+ New Instructor Speakers

⑤ Capacity

No of participants

Open 50 pax 500 pax

⑥ Pricing

Free RM 50 RM 250 RM 500 RM 1000

② Registration

* Date and Time

Start Date and Time → End Date and Time

5. Change (2) to (7)

6. Speakers not a compulsory field

7. Synchronise interface

6. Speakers NOT a compulsory field

④ Instructor / Speakers

* Instructor(s) * Speaker(s)

Mr.Ali A × Dr. Robert J. Oppenh... × Mr.Bob

+ New Instructor

7. Change the interface on the "Speaker(s)" to match the one "Instructor(s)"

11. Add "RM" (currency) at the front to not confuse users

11. Adding currency to avoid user confusion

12. Changes made to Speakers / Instructors

Speakers

 **Mr.Bob**
Specialty

Instructor

 **1) Mr.Ali A**
2) Mr.Oppenheimer
Specialty

12. Changes:

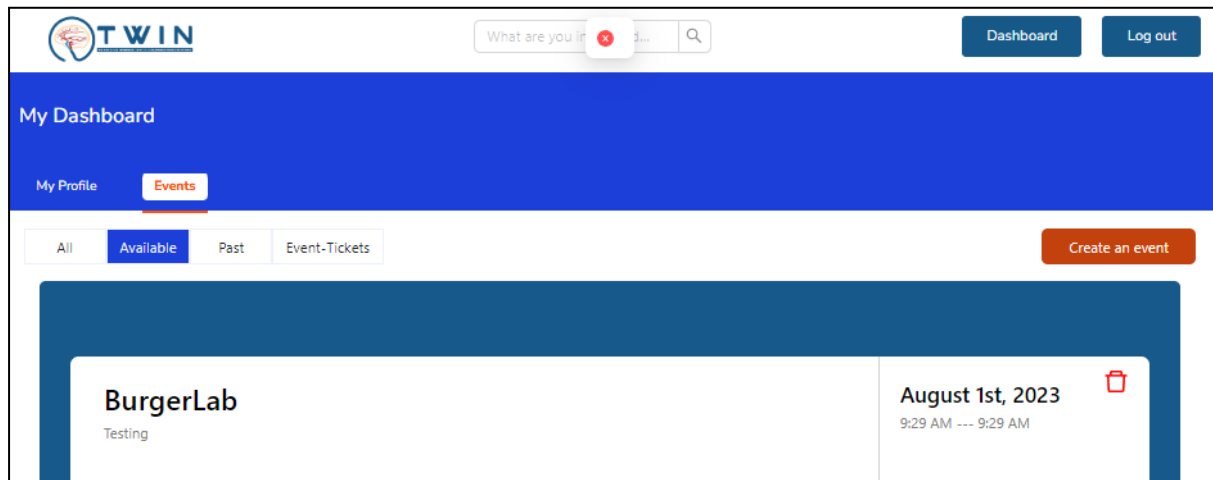

1. Font of the speakers to Black
2. Remove the "Speciality" word underneath the speakers.
3. Remove numbering in front of the speakers and instructors

13. Add [Edit Event Details] button

13. Needs an “Edit Event Details” button to allow users to edit the event details they created.

Or add a pencil icon underneath the Trash can icon to indicate that the event details can be edited.

14. Unable to delete event bug

14. Cannot delete Event? It shows a pop up of "X" without explaining what went wrong

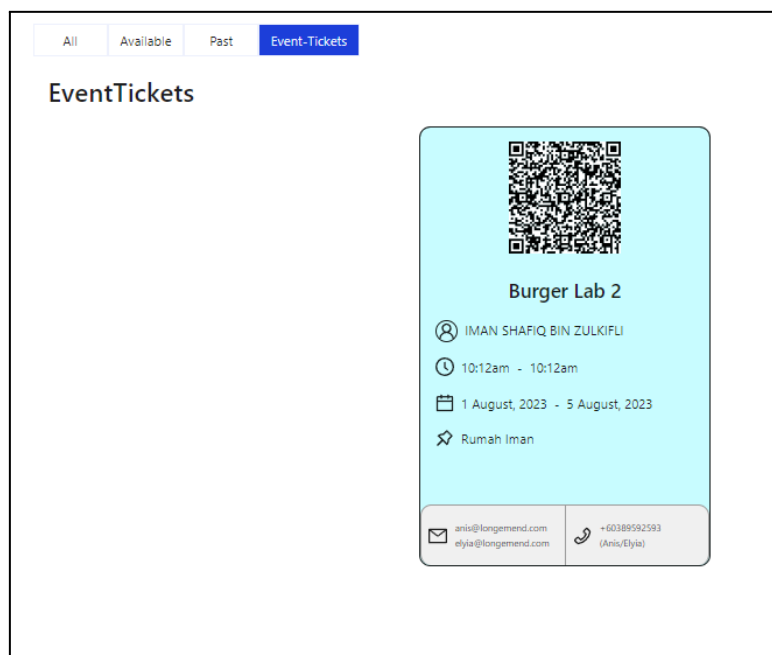

F) PAYMENT PAGE

15. “Process” typo

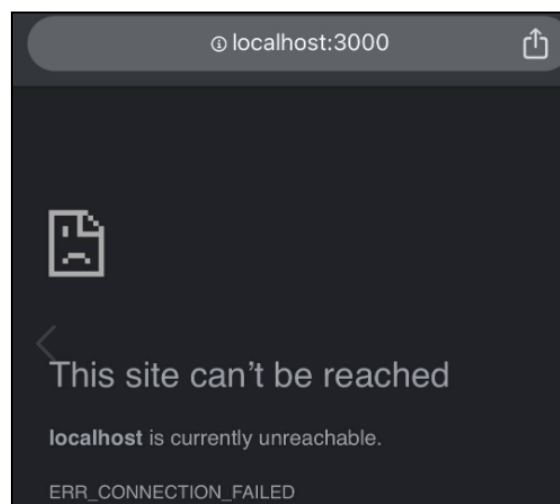

15. “Procees” typo. Should be “Process”

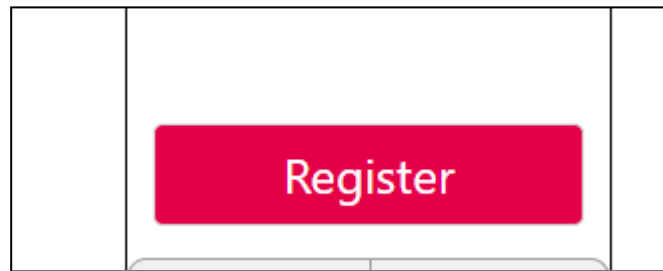

16. QR links to developer mode error

16. QR link should lead to User Dashboard. It leads to Developer mode

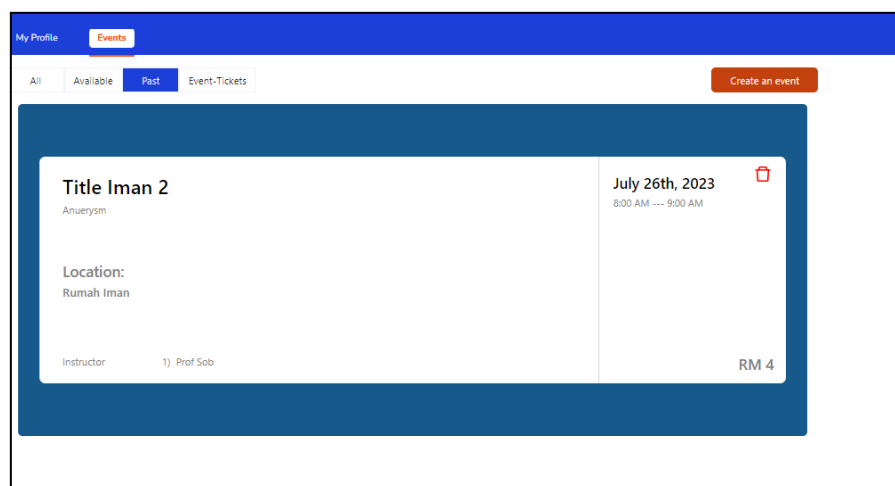

17. Registered green button

17. Should be green and "Registered" since I've registered. If users want to register again, add another button beside or below that says "Register again"

G) USER DASHBOARD PAGE - EVENTS PAST TAB

18. Changes to Course Details for Past Events

Title Iman 2

PACS Embdding

18. Changes:

1. Turn the Button Register to Gray colour
2. Disable the link to registration for Past Events. (Disable the button, basically)
3. "Seats Available" should be removed

H) EMAIL - AFTER PAYMENT HAS BEEN MADE

19. Changes to Ticket in Email

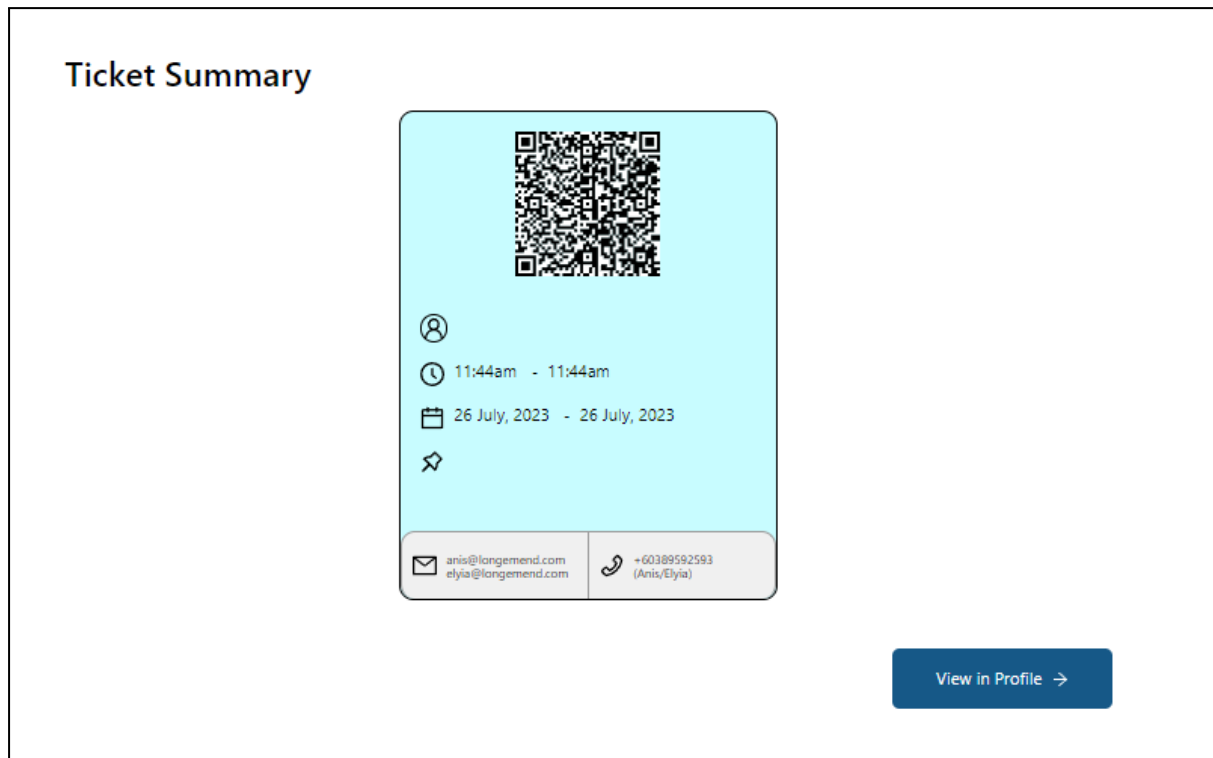

19. Changes:

1. Change User Emoji to User icon
2. In Email, Remove secretariat@mynis.org and in Phone, remove Ms.Aina's number
3. In the email, add a link redirecting users to their User Dashboard to the "Event Tickets" tab. Example: "[Back to User Dashboard](#)"

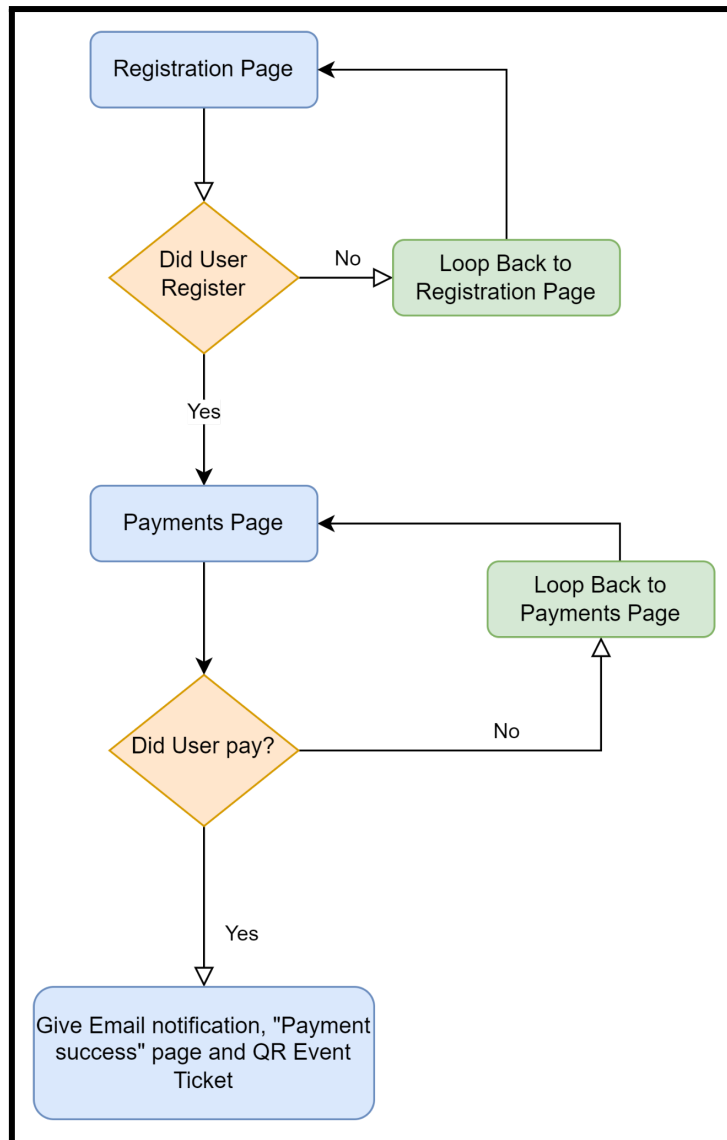

I) PAYMENT PAGE - IF CANCEL PAYMENT

20. Cancel payment, Ticket still received - Logic Error

20. If cancel payment, it still gives the user the ticket. It should NOT do this.

Instead, it should loop back to Payments page. It should not give the user the ticket. This error applies to both Credit/Debit and FPX

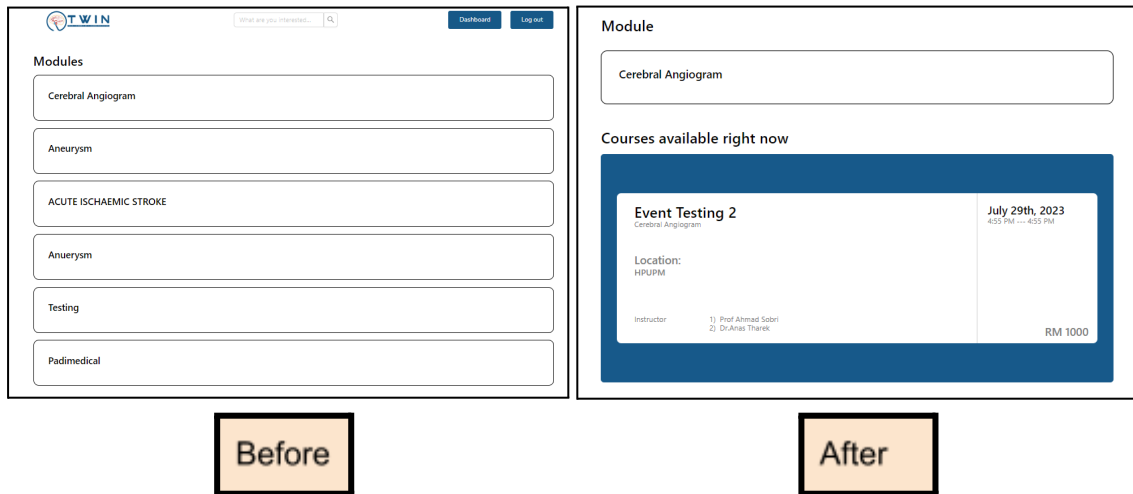

The flow should look like this.

If the user cancels the Registration, then loop back to Registration page.

If the user cancels the payment, then loop back to Payments page

J) HOME PAGE / VIEW ALL COURSES BUTTON / MODULES PAGE

21. Modules page bug / error

21. Once it leads to the modules page, once the user clicks on one of the modules in “Before”, it opens all the events under that module. That is working fine.

However, it cannot de-select and return to the list like in “Before”. It remains stuck like in the “After” page.

Here, the user should be able to click on the module title and return to the list like in “Before”

K) COURSES FILTER PAGE

22. Unable to de-select filter selection bug / error

23. "Free" filter not working properly.

The screenshot shows a 'Filter' sidebar on the left and a main content area on the right. The sidebar has three sections: 'Formats' with 'All' selected, 'Module' with 'Cerebral Angiogram' selected, and 'Pricing' with 'Free' selected. The main content area displays an event card for 'Event Testing 2' (Cerebral Angiogram) on 'July 29th, 2023' at 'HPUPM' for 'RM 1000'. An orange arrow points from the 'Free' filter in the sidebar to the event card. A callout box points to the event card with the text: '23. "Free" Filter still shows an event with a pricetag?'. Another callout box points to the 'Free' filter with the text: '22. Unable to de-select filter. For example, if a user wants no filter at all?'.

22. Unable to de-select filter. For example, if a user wants no filter at all?

23. "Free" Filter still shows an event with a pricetag?

24. Filter should not be case-sensitive.

The left screenshot shows a search bar with 'Event Testing 2' and a 'Filter' sidebar with 'All' selected. The right screenshot shows the same search bar with 'event Testing 2' (lowercase) and the same 'Filter' sidebar with 'All' selected.

24. Searching should not be case sensitive to be more user-friendly.

Additionally, using the search bar in any page should lead to the Courses Page
